## Summer School Offerings

### Credit Recovery vs. Initial Credit

This summer, Ridge Spring-Monetta High School will be offering two options for students who need to gain a summer credit. Summer school will be offered through APEX virtual learning which allows students to take almost any history, English, math, or science course for initial credit. APEX is a perfect option for students who are trying to gain a credit for "on-time" or early graduation. This is also an appropriate option for students who failed a class with lower than a 60 for the year. Initial credit courses will receive the actual grade earned through completion.

\* English 1, Algebra I, Biology I, and US History initial credit courses will require a state mandated EOC test which counts as 20% of the student's final grade.

### Credit Recovery

Credit Recovery is a less intensive option for gaining a credit for students who failed one semester and is applicable for students who scored between 60 – 69 in a core content class. Completion of Credit Recovery will allow a student to earn a 70 in place of their failing grade.

Credit Recovery courses do not require EOC testing.

### Notes & Disclaimers

Initial credit courses will be assigned a certified teacher for each discipline.

Initial credit for semester courses will be charged credit recovery fees due to the seat time being less than a full credit requires.

All students will be expected to abide by the student code of conduct while enrolled. If a student is dismissed from summer school for violating school policy, no refund will be given.

Class availability is based upon enrollment. Lack of minimum enrollment will result in classes being cancelled.

Students should bring their lunch as lunch will not be provided.

Supplemental lessons will be used as needed.
